

Superstore Sales & Profit Dashboard – Key Business Insights

Sum of Sales by Category

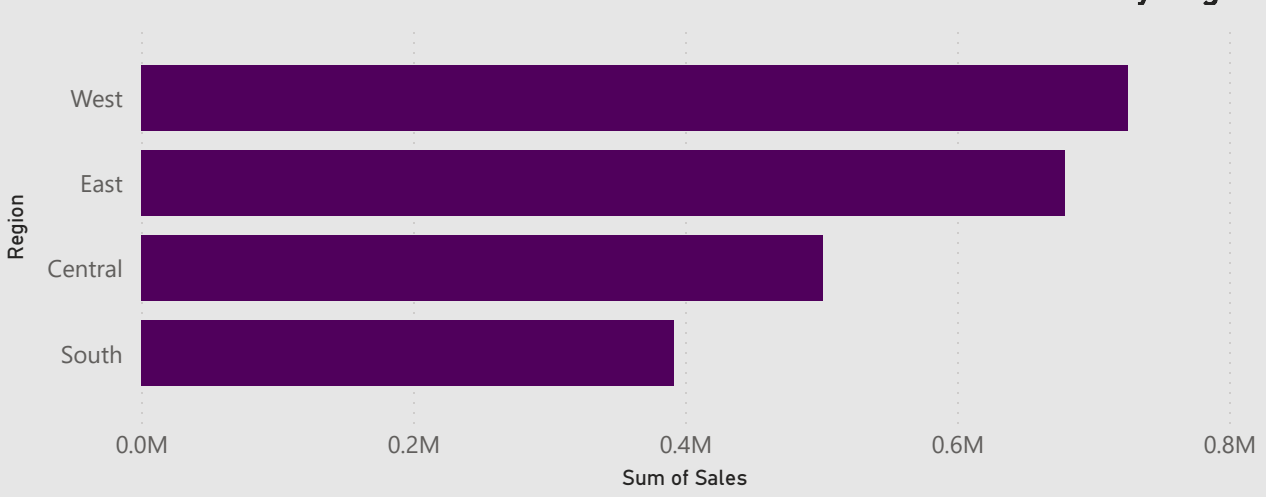

Sum of Profit by Category

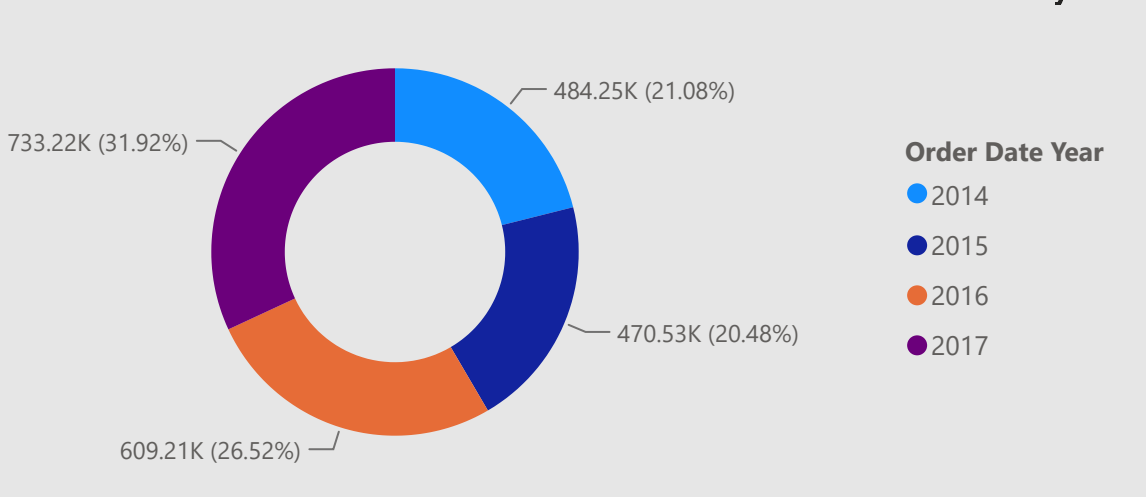

"Technology and Furniture together generate the majority of total sales, while Office Supplies - despite high order frequency - contributes the least revenue per order."

"Technology drives the highest profit, but Furniture's profit margin is disproportionately low compared to its sales — suggesting high discounting or higher product costs eating into margins."

Sum of Sales by Region

Sum of Sales by Year

"The West region leads in total sales, followed closely by the East, while the South region shows the lowest sales — signaling potential for targeted regional marketing or expansion."

"Sales show a consistent upward trend year-over-year, with the most significant growth seen in the final year — indicating strong business momentum, but worth checking if growth is broad-based or driven by a single category/region."
